

Industrial & Speciality Chemical Sourcing

Company Profile & Sourcing Categories

Vapi-based industrial and
specialty chemical sourcing partner.

GST Registered

Vapi, Gujarat

Requirement-based sourcing

Company Overview

Who Orion Is

Clear role. Controlled positioning.
Trusted communication.

Orion Petrochem is a Vapi-based industrial and specialty chemical sourcing partner, supporting buyers with requirement-based sourcing through verified supplier channels for domestic and international enquiries.

Role

Industrial & specialty chemical sourcing partner

Approach

Requirement-based sourcing, not uncontrolled stock claims

Coverage

Supports buyers across multiple chemical categories

Commercial model

Quotation shared after validation of grade, quantity, packing, documentation, compliance, and supplier availability

**We do not sell uncontrolled inventory.
We help convert enquiries into verified supplier options.**

Orion Petrochem

Sourcing Categories

Broad category coverage for requirement-specific sourcing

Industrial
chemicals

Specialty
chemicals

Pharma and
intermediate chemicals

How Enquiry Is Handled

SOURCING WORKFLOW

A controlled process from requirement to verified quotation

For Faster Quotation, Share:

Product name and required grade/specification

Quantity and delivery city/pincode

Packing preference

Required documents:
COA / SDS / invoice / e-way bill

Expected timeline and commercial preference

TRUST BOUNDARY

Why Buyers Work With Orion

Professional sourcing support with clear communication and controlled claims

01

Clear Role Positioning

Sourcing partner, not an uncontrolled inventory seller

02

Document-led Communication

Requirement, grade, packing, and documentation aligned before quotation

03

Verified Supplier Channels

Requirement matched through relevant supplier network

04

Multi-category Support

Broad category sourcing without boxing buyers into a narrow product list

05

Commercial Discipline

Price shared after requirement validation

06

Business Credibility

GST registered and based in Vapi, Gujarat

Industrial & Speciality Chemical Sourcing

SUPPLIER PARTNERSHIP

Why Manufacturing Suppliers Work With Orion

Verified direct manufacturing suppliers for requirement-based chemical sourcing.

Orion matches verified direct manufacturing capability with qualified buyer requirements - without limiting market scope by geography.

01 Verified Direct Manufacturers

Manufacturing suppliers are onboarded based on product capability, documentation, and commercial readiness.

02 Qualified Buyer Requirements

Enquiries are filtered before supplier coordination, so your team receives relevant requirements.

03 Product & Grade Alignment

Chemical name, grade, specification, packing, COA/SDS/TDS, and compliance are clarified.

04 Commercial Discipline

Rate validity, GST, freight, dispatch timeline, and payment terms are aligned before quotation.

05 Domestic & International Scope

Opportunities are not geography-locked. Each requirement is evaluated based on fit, logistics, and compliance.

06 Long-Term Channel Building

Reliable suppliers can be considered repeatedly when relevant product requirements appear.

How supplier coordination works

1 Register → 2 Verify → 3 Match → 4 Align → 5 Coordinate

Supplier opportunities are matched enquiry-by-enquiry. Orion Petrochem does not guarantee purchase volume or fixed order flow.
